STUDIO PACK

Photo by Sarah Edmunds

STUDIO PACK

P2400

P2400

P2400 is an excellent and full-featured power pack with integrating technology, engineering, and craftsmanship, its power, speed, and consistency are all breathtaking. The full power output 2400Ws enables to completely achieved photograper's imagination in any kinds of shooting senarios. And power is just one of the advantages of P2400 power pack.

Key Features

- Breakthrough power catch any detail of the shooting subjects and output quality shots to make sure high working efficiency.
- Incredibly short flash duration of up to 1/17800s and fast recycling time in 0.7s at full power-enables photographers to freeze every instant dynamic movement and never miss a wonderful moment with handy adjustment.
- Stable color temperature make sure uncompromising color consistency-satisfy strict requirement on color accuracy and save time,money in post -production.
- · Supports fully symmetrical and asymmetrical power distributionallows photographers to experiences tremendous creative freedom with various lighting possibilities.
- Large high-definition color screen-intuitive and precise control.
- Built-in two different frequency systems includes Godox 2.4G wireless system and 433MHz wireless trigger system-allow users have more freedom to switch frequency, avoid the interference and enjoy a reliable shooting environment.

H2400P

A powerful pack must match with a powerful flash head. H2400P flash head equipped with advanced light tube technology. And it is designed to support zoom function and compatible with various of light shaping tools to set photographers creativity free.

Key Features

- Zoomable flash head--rotate the knob to adjust light range and intensity
- Ultrabright 60W LED modeling light--offers impressive brightness which is equivalent with to 300W halogen lamp, and allows users to own precise preview
- Bowers mount--suitable for wide range of lighting modifiers and help to open up more possibilities

Accessories

Physical connection-H2400P head extention sync cord allows photographers to avoid any interference and maintain the sync speed wihout delay even under extreme conditions

EC2400 H2400P Head Extension Cord 5m

The high quality carrying bags support photographers to safely carry and store both P2400 power pack and H2400P flash heads.

RING FLASH HEAD

R2400

R2400

Designed for the P2400 studio pack system, the R2400 is the the most powerful ring flash form Godox. It combines 2400Ws strong power and even illumination of a ring flash and is compatible with the professional light focusing system, to provide striking results for fine-art portrait, fashion, editorial, and any genre or style you want to create.

Key Features

- 2400Ws on-axis light source delivers beautiful highlights without harshness and renders even illumination while maintaining enhanced details.
- Consistent output with a reliable performance of freezing and high-volume continuous shootings.
- Compatible to P158 kit as a powerful but extremely even fill-light wrapping around the subject without casting the additional shadow.
- Comes with a foldable bracket to mount on a light stand and an umbrella mount for use with umbrella.
- FLB-90 Quick Rotating Camera Bracket helps to shift from horizontal to vertical composition in a blink without shifting the axis.
- Share the same accessories system with R1200ring flash.

Tech Specs

Model	R2400
POWER	2400Ws
Guide No. (1/1 output)	64(with RFT-21 reflector)
100% Light Brightness	10200
(Lux, 0.5m distance)(≈)

Modeling Lamp (LED)	4300±200k; 40W
Color Temperature	5800±200k
Dimension	205*205*80mm
Net Weight	1.8Kg

RFT-21 Reflector

Designed for R2400, the RFT-21 Reflector can spread the light out, illuminate a larger area than the ring flash head itself and soften the shadows. Godox offers two dedicated reflectors(white and silver coating). The silver reflector is very reflective and brings more contrast compared with white one which provides extra softness.

MS Series

MS200/MS300 (Halogen modeling lamp) MS200V/MS300V (LED modeling lamp)

It is a lightweight, compact and durable flash series with complete functions. Designed for shooting studio portrait and e-commerce product. This product is suitable for head shot, waist shoot, and certificate photography, as well as product shooting, etc.

Key Features (MS200V/MS300V)

- Built-in Godox 2.4G wireless X system
- Precise output displayed on LCD panel, 50 steps from 1/32 to 1/1 (or 5.0 to 10.0)
- Use optional X2, XT16 or FT-16 trigger to control the flash power ratio, modeling lamp and buzzer, as well as flash triggering
- Compact and lightweight body with Bowens mount to add almost any studio light shapers
- 10W modeling lamp adjusts in 5% to 100% power levels
- Outstanding output stability, no more than 2% shifts when under the same output
- Anti-preflash function enables synchronization with cameras that have a one-preflash firing system
- Auto memory and recovery of adjusted panel settings

STUDIO FLASH

STUDIO FLASH

DSII Series

DS300II/DS400II

DS300II & DS400II studio flash are versatile flashes with solid core and convenience features. These strobe have power that is variable from 1/32 to 1/1 and recycling times from 0.3-1.0 sec. The 150W modeling light is steplessly adjustable. Since the head has a built-in 2.4 GHz wireless receiver, besides triggering the flash, both the power and the modeling light can be adjusted remotely with the separate purchase of the XT16 transmitter. Settings are visible on the flash head's digital readout. The DS300 II has a Bowens front accessory mount that allows it to use not only our Godox modifiers, butalso accessories from the many manufacturers that use this popular mount. The DS300 II ships with a standard reflector and a modeling lamp.

Key Features

- Powerful output:maximum 300Ws full power output for DS300II and 40Ws for DS400II
- Short Flash duration from 1/2000-1/800 second and fast recycle time within 1s
- Wireless control: wirelessly power adjusting
- The flash can be controlled and triggered by flash trigger
- Compact and lightweight, easy to store and friendly for carrying
- Designed with Bowens mount offeres photographers various of possibilities since it can match with wide range of lighting modifiers.
- In order to maxium free and promopt photgrapger's shooting

experience, DSII series equipped with four triggering mode. It's not ony can be triggeres by flash trigger, but sync cord,test button and wireless control port.

- Stable color temperature with 5600k and can be adjusted within 200K
- Equipped with M/s1 flash mode
- Adjust from 5.0 to 10 in o.1 increments(1/32-1/1)
- Steplessly adjustable 150w modeling lamp

GSII Series

GS200II/GS300II/GS400II

Gemini GSII series flash is a cost-effective choice for photographer to use for both indoor and outdoor. It is not only compact in size, but strongly compatible with accessories. In a word, it is a desirable lighting source for professional photographers to achieve creative lightinig effects in various subjects of photography.

Key Features

- Precise output displayed on LCD panel, 50 steps from 1/32 to 1/1 in 0.1 increments
- High-qualified modeling lamp, 150W output and 5% to 100% manual light adjustment
- Outstanding output stability, a tolerance of $\leq 2\%$ under the same output
- Adjusted parameters intelligently remembered after 3s and automatically recovered after a restart

QS400II/QS600II/QS800II/QS1200II

QSII provides a highly cost performance solution to photographers. It possesses almost all the best of QTII flashes with small difference in recycling and flash duration. A wide range of models meet different power output needs and suit for various photography scenarios, such as wedding,portrait,fashion and commercial shooting.

Key Features

- 5600K daylight-balanced flash source with sophisticated core and convenience features.
- The head features 0.3-1.5 sec. recycling with flash durations as short as 1/2000 sec.
- Settings are accessed via rear panel push buttons & displayed on clear LCD screen.
- Triggering options include sync cord, test button, X2, XPro, X1 and XT16 transmitter.
- The head also has an anti-pre-flash function that makes it easy to work with point-and-shoot and other cameras that employ pre-flash.
- QSII has a Bowens front accessory mount allowing it to use Godox modifiers as well as accessories from the many manufacturers that use this system.

STUDIO FLASH

QTIIM Quicker HSS Flash

QT400IIM/QT600IIM/QT1200IIM

QTII series high-speed flash has a comprehensive upgrade from advanced technique and abundant functions compare with the first generation. With built-in Godox 2.4G wireless X system to offer convenient wireless conrol and high-speed flash to capture the wonderful moment, QTII series is excellent for wedding, advertisement, portrait, fashion and high-speed photography.

Key Features

- 5600K daylight-balanced flash source
- Fast recycling as well as short flash durations
- The QTII offers power that's variable from 1/128 to full power, with variable 150W modeling light's output.
- Settings are accessed via rear panel push buttons and displayed on the easy-to-read LCD screen.
- The head has several flash modes for performance options. Ideal for most shooting situations, Stable Color Mode prioritizes precise 5600K color rendition.
- The QTIIM also supports High-Speed Sync enabling the use of shutter speeds as short as 1/8000 sec allowing you to use wider apertures and other creative effects.

Quicker Studio Flash

QT400IIIM/QT600IIIM/QT1200IIIM

The new QT III is a breathtaking evolution of Quicker series. With all-round upgrades, it has better performance in modeling light, HSS and other key features, giving full play to the photographers' creative potentials and adding more efficiency in the fast-paced production.

Key Features

- Short flash duration up to 1/29600s(t=0.1, QT400IIIM)
- Fast recycling time of 0.01-0.9s
- Multi-flash mode to create images of movement
- High speed sync with the shutter speed up to 1/8000s enables production with large apertures and other creative effects
- Stable color temperature mode satisfies high requirement on color accuracy
- More powerful and energy-saving 30W LED modeling light adjustable from 0-100%
- Adjustable output from 1/256 to 1/1
- Built-in 2.4G wireless system for wireless control within 50m
- Compatible with various Bowens-mount modifiers

POWER INVERTER

Photo by Sarah Edmunds

LP750X

POWER INVERTERO FLASH

Accessories

EC750 External Power Source Connector

LP750X

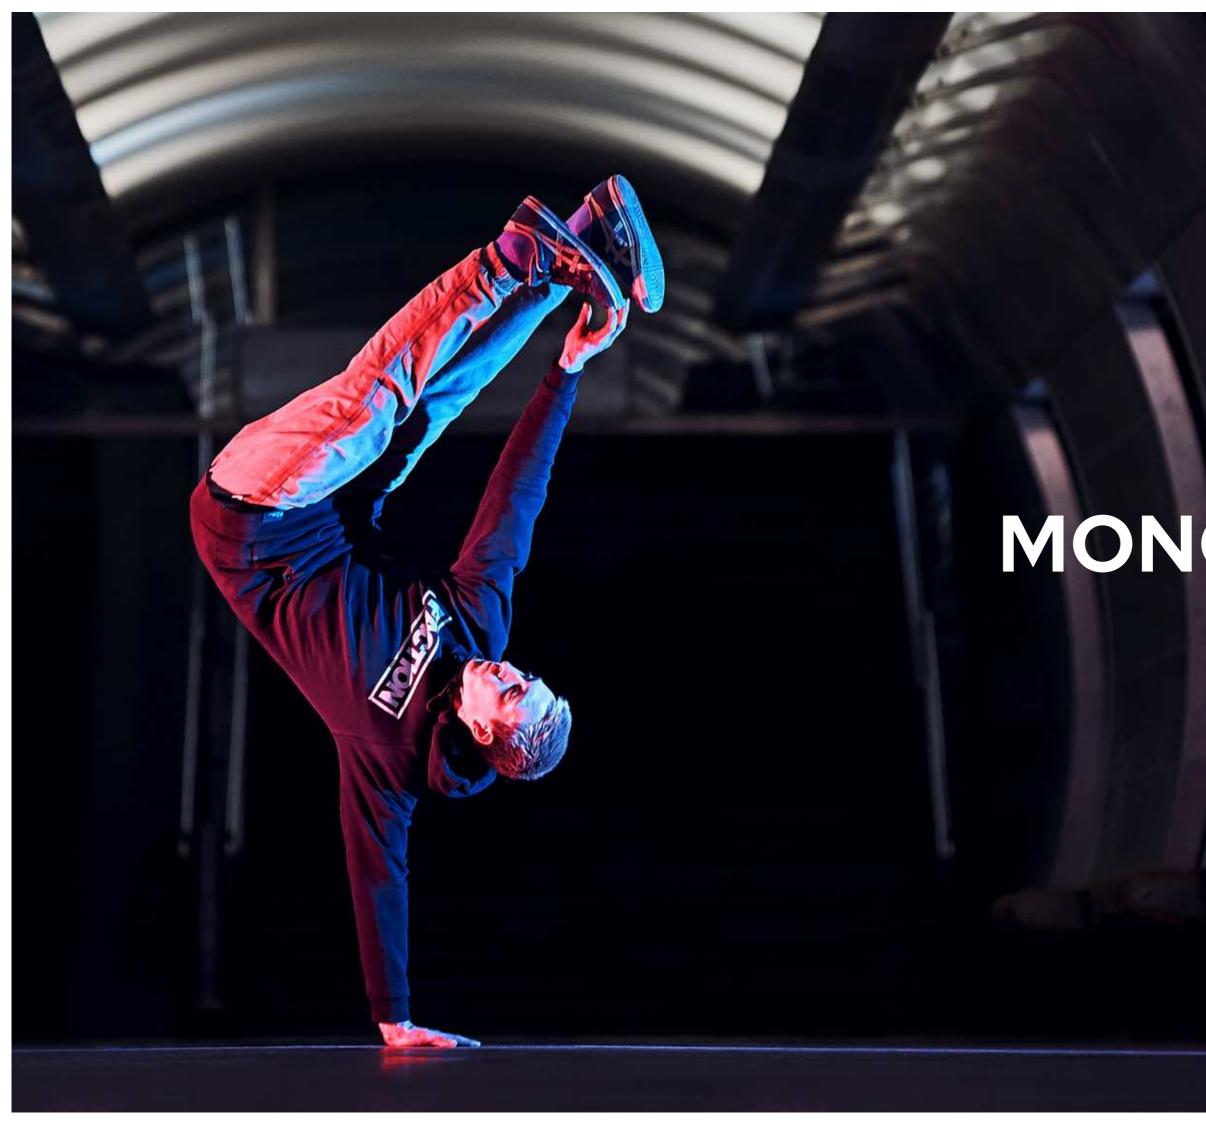

This power inverter series is specially designed portable AC power for advanced flash devices. It provides ideal power supply solutions for location photo shooting and indoor emergency power use. With multiple AC sockets, multiple lights and also other devices such as laptops or wind machines can definitely rely on it. It has two operating modes: normal mode & flash mode. In normal mode, the unit detects that connected devices are not drawing power and then enters into standby state to save power. The flash mode is specially designed based on the flash power supply circuit.Portable Power Inverter LP750X offers perfect outdoor AC power supply and indoor emergency supply with reliable and easy operation.

Key Features

- Strong power and easy operation
- 2 USB port for charging
- Support both indoor and outdoor shooting
- Safe and reliable with multiple protective function
- Lightweight and portable
- Powerful battery: battery capacity up to 15000mAh and able to support all the shooting scenarios that photographers demand
- Built-in cooking fan:protect LP750X from overheat
- Conversion efficiency as high as 95% and allows devices to run cleaner and cooler

Model	LP750X
Continuous Output	750W
Peak Power	1400W
Input Voltage Range	DC 10.8V-13.2V
Output Voltage/Frequency	AC 220V-240V/50Hz
Output Waveform	Pure Sine wave
High Harmonic Distortion	<3%
No-load Current Consumption	Normal mode: 0.24A
	Flash mode: 0.95A
Conversion Efficiency	95%
Low-voltage Alarm	Yes
Low-voltage Shutdown	Yes
Working Temperature Range	-10°C - 40°C
Operating Temperature Range	0-40°C
Battery Type	Lithium-iron ferrous phosphate battery
Nominal Capacity of the Battery	15000mAh (12.8V)
Charging Period	About 3.5h (standard 5A charger)
Fuse	3*30A
Size	172*178*293mm
Weight	approx. 6.96kg

MONOLIGHT

AD100Pro

MONOLIGHT

AD100Pro

Key Features

- Incredibly small: 524 gram include battery, throw into your pocket or bag
- Expanded versatility: round and magnetic flash head suitable for Godox AK-R1 accessories kit; with S2 bracket, it works with Bowens mount modifiers
- Wireless freedom: built-in Godox 2.4G system, work with X1, X2 and XPro
- Powerful battery: 2600mAh battery
- Firmly attached: two slots underneath the flash for adjusting the position of flash

AD100Pro Color Edition

Inspiration is boundless and color is infinite. AD100Pro color versions provides color choices for photographers for the first time ever. It's unique in appearance. In application, it also helps photographers to grouping the lights and find out the right light quickly.

AD100Pro

Pocket Flash AD100PRO inherits the advantage of Godox AD series and great compatibility with Godox radio system. The new 100Ws strobe fills the gap of photographers' demand for an off-camera strobe at this power level.

Accessories

AK-R1

Accessory Kit for round flash head contains magnetically-attached modifiers that maximize the capabilities of the head. It contains a snoot, four-way barndoors, and a honeycomb grid, a dome, a filter set included

FG-100

Flash Grip is a rugged and portable grip compatible with Godox AD100pro, AD200pro, AD300pro , it extends flexibility to extreme. Ergonomic design eases your wrist in a long-time shooting. Mounted on the 15° tilted upper surface, the light can illuminate downwards naturally, which avoids strain or even injury caused by bending your wrist down constantly.

S2

bracket supports to expand versatility of AD100Pro. With using S2 bracket, AD100Pro can work with various Bowens mount modifiers such as snoot, reflector, beauty dish, softbox and photography umbrella to achieve all light effects that you need.

AK-R21

Projection attachment designed for Godox monolights and camera flashes, providing optional projecting lenses, numerous transparencies, and adapting holders that brings endless inspirations

Discover the versatility and reliability of the AD200Pro II, featuring upgraded H200J II and H200 II flash heads, each with a bi-color modeling lamp for multiple usages as a constant light source in creating. Enjoy optimal performance with improved heat management and stable color temperature. Simplify multi-light management with the group color indicator and one-tap pairing with the X3 trigger. With quick charging options and a comprehensive lighting system, the AD200Pro II is the ultimate choice for photographers seeking compact, powerful, and versatile lighting solutions.

Key Features

- Effortlessly sync with the X3 trigger for quick setup and focus on creativity.
- Improved cooling design ensures optimal performance without overheating, compatible with previous 200 series heads.
- Bi-Color Versatile Modeling Lamp
- Consistent color accuracy with a variance within ±100K, ideal for color-critical shoots.
- 16 Group Color Indicator
- Fine-tune lighting with flash power adjustable from 1/512 to full power in 0.1 increments.
- Enhanced Color Screen and clear interface
- Fast charging options via USB charger or external power supplies, ensuring uninterrupted shooting.
- Versatile monolight system with six flash heads and numerous accessories

AD400Pro

MONOLIGHT

AD400Pro

AD400Pro

AD400Pro all-in -one outdooor flash is a versatile tool campatible with several TTL systems including

Canon,Sony,Nikon,Fujifilm,Olympus and Panasonic options. It offers up to 400Ws with nine steps of power output.It features a highspeed sync mode that works with shutter speeds and great flash duration. Another unique setting is its Stable Color Temperature Mode, which tightly controls color to keep temperature changes within 75K across the entire power range. Despite these characteristic, it manages to keep recycling times low to capture peak action and every fleeting gesture.

Key Features

Built-in Godox 2.4G Wireless X System with Great Compatibility

- With built-in Godox 2.4G wireless X system, AD400Pro is
- compatible with multiple TTL autoflash system. Support for 1/8000s high-speed sync.

Supports to Install Different Kinds of Accessories by Replacing Its Adapter Ring

- With specially designed New Godox-mount to install lighter and more portable accessories which can be used in combination.
- Provided with a Bowens-mount adapter ring to install Bowensmount accessories.
- Purchase adapter rings of other brands to replace more accessories e.g. Broncolor, Profoto, Elinchrom, etc.

Two Power Supply Methods with Great Flexibility

• Professional lithium battery pack (21.6V/2600mAh).

UC46 charger

It can charge the battteries of AD400Pro, AD600 series and Ad600pro outdoor flashes, which offers great portability in outdoor shooting.

AD600Proll

Evolving for a superior user experience. The AD600Proll integrates the latest One-Tap Sync with X3 Trigger, group identification indicator, and an optimized color screen. It boasts upgrades in flash duration, battery life, and wider output range. Continued the the reliable performance of the AD600Pro, the AD600Proll boasts an extreme recycle time from 0.01 to 0.9 seconds. Plus, it supports High-Speed Sync up to 18000 seconds. With the Godox 2.4G Wireless System, the AD600Proll seamlessly integrates with TTL auto flash systems across multiple camera brands, including Canon E-TTLII, Nikon i-TTL, Sony, Olympus, Panasonic, FUJIFILM, Pentax, and Leica.

Key Features

- Easy Sync: Built-in Godox 2.4G Wireless X System, One-Tap Sync with Godox X3 Trigger.
- Upgraded 40W Bi-Color Adjustable Modeling Light: 2800K-6000K CCT adjustable, focusing on professional photography while assisting the video recordings.
- Colorful Control Innovation: Wireless pairing with 16 color groups indicator light, a total of 16 controllable slave groups, each group corresponds to a different color.
- The shortest flash duration can be 1/20400(t.01) under the Freeze Mode.
- Better User Interaction Experience: Upgraded TFT color screen and user-friendly control panel.
- Wide & Precise Output Options: From full power 1/1 to 1/512 with 0.1 increment steps.
- Strobe With Extremely Fast Recycle Time: Extreme recycle time of flash, 0.01s-0.9s. HSS&TTL.

MONOLIGHT

AD1200ProKit

TTL Power Pack

AD1200Pro

Ad1200 kit offers high quality light for outdoor and live shooting with strong power and large capacity lithium battery pack. Large capacity power pack and light flash head offers great portability

Key Features

- Powerful and flexible power pack: 5200mAh large battery capacity and 500 full power output. Besides, there is also a 2600mAh smaller battery for taking on the airplane
- 0.01-2s quick recycling time and stable color temperature mode
- 23.5 sync cord jacks helps to connect several flashes
- Multi-function flash head:Bowens mount match with various light modifiers, good heat dissipation capacity with built-in fan design
- Wireless control:built-in 2.4G X system
- 40W LED modeling lamp and can be adjust brightness steplessly
- 1/8000s high0 speed sync function

Accessories

Designed for Godox powerful AD1200Pro, Godox most versatile and high-end R1200 and H1200P flash head takes up to 1200Ws strong power, providing even illumination with few shadows visible in the images as the origin of the light is very close to the optical axis of the lens. It produces striking results for portrait, video recording, and especially in close-up shot and macro photography With up to 1200Ws strong power, the R1200 and H1200P flash head can ominate daylight or even overpower the sun. Equipped with 40W modeling light, you can get prevision on how the light falls on the subject. Compared to the point light source, the light of R1200 is very close to the optical axis of the lens, creates a glamorous look, making the subject almost free of shadow, popular in portrait and fashion photography. As R1200 uses a circular flash tube, you could also get beautiful catchlights in your model's eyes. H1200P is a lightweight flash head with the Bowens mount allows photographers to attach hundreds of modifiers.

RFT-21 Reflector

Designed for R1200, the RFT-21 Reflector can spread the light out, illuminate a larger area than the ring flash head itself and soften the shadows. Godox offers two dedicated reflectors(white and silver coating). The silver reflector is very reflective and brings more contrast compared with white one which provides extra softness.

AR400

AR400

As a valuable product in Wistro series, powerful ring flash AR400 offers shadow-free illumination and even light effects with strong power and portable lighting body. The brand new lithium battery unibody design gives you better light experiecne.

Key Features

Shadow-free Illumination

- AR400 adopts annular flash head to provide constant illumination for even & shadow-free lighting.
- Multiple Functions
- AR 400 can be used as ring flash and LED light as well.

Professional Battery Pack

• AR400 adopts professional battery pack (11.1V/4500mAh) and 400W high power output to support 0.05-2.8s recycle time.

Wireless Power Control

• AR400 support high-speed sync remote control and can easily to achieve 1/8000s high speed sync.

Full Range Accessories

- With a folding light bracket, AR400 enables to be installed on camera .With an umbrella bracket, AR400 can install different photographic umbrellas for better light effects.
- With a diffusion cover, AR400 possesses soft illumination and even light resource.

Lightweight and Convenient

• AR400 is easy to be carried since it's only weight 1.KG include battery pack.

CAMERA FLASH | TTL LI-ION ROUND HEAD

V1Pro C/N/S/F/O/P

V1Pro

V1Pro is an advanced TTL Li-ion round head flash, that exhibits enhanced versatility and superior performance, allowing for up to a hundred continuous shots. Its comprehensive upgrades guarantee the quality of photography, providing photographers with an efficient and convenient lighting tool.

Key Features

- The flash head features a class-leading heat-resistance design, ensuring up to 100 continuous shots.
- The flash tube boasts superior longevity, ensuring reliable performance.
- Support use with detachable sub flash SU-1 for better filling light.
- Can be collocated with power pack PB960 to achieve guicker recycle time.
- 7.2V/2980mAh lithium battery, with Type-C charging, offers a 1.5s recycle time at 1/1 step.
- 76Ws flash power output at 1/1 step in M mode, 81 steps adjustable from 1/1 to 1/256.
- Use dot-matrix LCD panel to achieve clear and convenient operations.
- With built-in 2.4GHz wireless system to support remote transmitting and receiving.
- With round lens to achieve soft, even and more creative light effects.
- Provide multiple functions, include manual flash, multi flash, HSS, Second Curtain Sync, FEB, FEC, etc.
- Stable consistency in brightness and color temperature with good even lighting.
- Sharing the same accessories with AD series, joining the accessory ecosystem to provide comprehensive and diverse choices.

V860III

CAMERA FLASH | VING LI-ION

V860III C/N/S/F/O/P

V860III

In the endless pursuit of improving users' shooting experience, Godox is trying to make perfection more perfect. Therefore, the upgraded version of the V860III continues all the features of V860II but is added with functions that will take your shooting efficiency to the next level, making photography a pure enjoyment.

Key Features

Various Flash Modes for Unlimited Creativity

- The V860III continues in TTL, Manual and Multi flash modes. All the functions as HSS (up to 1/8000s), FEC, FEB, rear curtain sync and so on help you to capture every splendid moment quickly, precisely and creatively. The V860III C/N/S/F/O/F models are currently available for Canon, Nikon, Sony, Fuji, Olympus (Panasonic), and Pentax Cameras.
- Zoomable Flash Head
- Flash head can be zoomed from 20mm to 200mm automatically or manually, allowing for a convenient adjustment of the light range. Whether shooting in a broad setting or a focused space, the V860III will light the objects naturally.

Flexible Shooting Angle

• With the swivel angle from 0° to 330° horizontally, and form -7° to 120° vertically, the V860III lets you easily complete direct flash, bounce flash, and any other shooting techniques.

Built-in Godox 2.4G Wireless X System

• Built-in with Godox 2.4G wireless X system, the V860III ensures a reliable shooting process with seamless connectivity. When using it off-camera, the V860III is also compatible with Godox X system triggers like X1, X2 and, so on.

Transmitter & Receiver Flash

• Integrating transmitter and receiver in one flash, the V860III gives youthe maximum flexibility and convenience to co-work with other flashes.

Better Battery Performance

- Upgraded a new battery with higher capacity(7.2V/2600mAh) offering 1.5s recycle time and 450 full power flashes. The battery is also interchangeable with V1, making your potential pack lighter. Quick Button for Manual and TTL Function Switch
- Godox V860IIII has a quick button on the side, able to quickly switch from the manual mode to TTL mode.

Quick Release Lock

• Updated a quick release lock to a quick lever to lock the speedlight into place on your camera's hotshoe.

Modelling Light

• Added a modelling light at the front to aid pre-visualization, and blend with ambient light, with brightness dimmable in 10 levels.

Accessories

S-R1

With Round Head Accessory Adapter S-R1, AK-R1 kit can also be used on Godox camera flashes e.g. V860III, V850II, TT685, TT600 series, etc.

S2 Speedlit Bracket

VC26T

Multi Battery Charger for V1 can charge three batteries of V1 simultaneously, which offers great convenience.

AK-R21

Projection attachment designed for Godox monolights and camera flashes, providing optional projecting lenses, numerous transparencies, and adapting holders that brings endless inspirations to photographers and creators.

CAMERA FLASH | VING LI-ION

V850III

CAMERA FLASH | VING LI-ION

V850III

V850III

Built-in Godox 2.4G wireless X system, VING Li-ion camera flash V850III provides abundant functions and better performance. Suitable for almost all camera brands, Canon, Nikon, Pentax, Olympus, etc.

Key Features

Powerful & Convenient Li-ion Battery

• Max. 1.7s recycle time & 450 full power pops. Forget the heavy burden and messy battery charging and handling. 2600mAh lithium batteries ensures better shooting experience.

Built-in Godox 2.4G Wireless X System

• Built-in Godox 2.4G wireless X system, V850III is compatible with V1, V860III, V350, TT685, TT350, XPro, X2, X1, etc.

Wireless Triggering

 Utilizing Godox 2.4G wireless X system, V850III can be triggered and controlled by X1C/X1N, X2T-C/X2T-N, XProC/XProN transmitter (sold separately). V850III can achieve 1/8000s highspeed sync functions when using in combination with high-speed triggers e.g. X1C/X1N, X2TC/X2T-N, XProC/XProN.

More Functions

 GN60 (m ISO 100@200mm) and 22 steps of power output (1/1-1/128). Support M/Multi/S1/S2. Auto/Manual zoom head from 20 to 200mm. Support USB firmware upgrade.

Convenient LCD Panel

- With high-resolution LCD panel to offer clear and easy operation. Turn the select dial to choose the amount of the settings.
- Swinging/tilting flash head (bounce flash): 0 to 330° horizontally and -7° to 120° vertically

V350 C/N/S/F/O

V350

Godox VING TTL Li-ion Camera Flash 350C/V350N/V350S/ V350F/V350O respectively applies to Canon, Nikon, Sony, Fuji and Olympus & Panasonic cameras. With this flash, your shooting will become simpler.

Key Features

Built-in Godox 2.4G Wireless X System

• With a compact body and max. 50-meter 2.4G wireless transmission distance.

Professional and Rechargeable Battery

• Built-in li-ion battery (7.2V/2000mAh) offers 0.1s~1.7s recycle time and over 500 full power flashes.

Choose Godox TTL flash trigger Xpro series to achieve more functions

- With built-in 2.4G wireless transmission, XPro series can be used to trigger camera flash, studio flash and camera shutter.
- Support for TTL autoflash, manual flash, multi flash, 1/8000s high-speed sync, flash exposure compensation, manual focus assist, rear curtain sync, etc.

Withstanding Overheat and Useful Functions

- GN36 (m ISO 100, @105mm), 22 steps of power output (1/1~1/128).
- Support TTL/M/Multi/S1/S2 modes, 24-105mm auto/manual zooming.
- With C.Fn custom function settings.

CAMERA FLASH

TT350 C/N/S/F/O/P

TT685II C/N/S/F/O

TT685II

Godox pushes further the boundary of the strong performer TT685 to optimize users' shooting experience. The TT685II is upgraded in various aspects while also inheriting all the powerful features of the TT685.

Key Features

New Features:

- Upgraded with a broader tilt angle from -7° to 120°, and rotatable in 330°.
- Added with the TCM function allowing for instant conversion from TTL to manual mode to improve your shooting efficiency
- Designed with a quick-release lock to ensure a smooth setup helping you capture the next masterpiece in the critical moments.
- More Functions:
- Godox 2.4G Wireless X System
- Fully support TTL function, 1/1800 high-speed sync, flash exposure compensation, flash exposure lock, and more.
- GN60(mISO 100@200mm) and 22 steps of power output (1/1 - 1/128)
- Approx. 0.1-2.6s recycle time, 230 full power flashes (using 2500mA Ni-MH batteries).
- Auto/Manual zoom head from 20-200mm.

CAMERA FLASH

TT600/TT600S

TT600/TT600S

Thinklite Camera flash TT600 adopts built-in Godox 2.4G wireless X system with abundant functions. With Master and Slave wireless flash system, TT600 fits all DSLR camera brands e.g. Canon, Nikon, Pentax, Olympas, etc. TT600S fits Sony cameras (MI Hotshoe).

Key Features

Built-in Godox 2.4G Wireless X System

 Optical & 2.4G wireless transmission offer even and stable output. With built-in Godox 2.4G wireless X system, TT600/TT600S is compatible with AD360II-C, AD360II-N, TT685C, TT685N, XIT-C, XIT-N, etc.

Wireless Triggering

- Utilizing Godox 2.4G wireless X system, TT600/TT600S can be triggered and controlled by only a XIT-C or XIT-N transmitter (sold separately). TT600/TT600S can achieve 1/8000s high-speed sync functions when using in combination with high-speed triggers e.g. Godox Cells II transceiver, X1 TTL wireless flash trigger, etc.
- Note: Hi-speed sync triggering mode is not available when TT600/TT600S is mounted onto the camera.

Abundant Functions

- Gn 60 (m ISO 100, @200mm), 22 steps of power output (1/1~1/128).
- Approx. 0.1-2.6s recycle time, 230 full power flashes (using 2500mAh Ni MH batteries). With C.FN custom function settings, focus assist lamp, buzz function, over-temperature protection, etc.

LUX SERIES RETRO CAMERA FLASHES

Lux Junior

Godox Lux Junior

Lux Junior

Lux series is a throwback to the iconic flashes of the past. With the slogan 'Keep It Simple', Lux Junior brings back the pure enjoyment and excitement of taking every shot. It's designed with auto flash mode to keep it easy to use, and manual mode to enjoy the achievement of manual controlling. Its single-pin hot shoe trigger and sync cord jack assures compatibility with both digital cameras and film cameras. With a vintage style speak for itself, Lux Junior will also be part of the everyday outfit.

Key Features

- Retro and Simple design

Lux Senior

Velvet Red Rose Pink

Lux Senior

Lux Senior is a further throwback to the '50s after Lux Junior. It's designed with a circular 9-blade silver dish that is reminiscent of the past days every time unfolding it. The delicate flashbulbs were centered in the holder of the reflector bowl. So the light effect is soft and perfect for portrait flash. Lux Senior is a perfect combination of vintage design and modern technology. As the slogan "Keep Your Vibe" embodies, it arouses the nostalgia glamour in our minds.

Key Features

- Cool vintage design
- Retro silver fan-type reflector
- Soft light result
- Lightweight and portable

MACRO LIGHT

MACRO LIGHT

ML-15011

MACRO LIGHT

ML-15011

Being a ring flash with the same optical axis as the lens, the ML-150II delivers shadowless light that presents all the details and lessens harshness, making the subject evenly lit. Also, circular lighting creates a unique eye light for portraits, making the figures come alive.

Key Features

- A compatibility range of lens diameters, including 49mm, 52mm, 55mm, 58mm, 62mm, 67mm, 72mm, and 77mm.
- Support fine adjustment of output power from 1/1 to 1/32 in \pm 1/2EV stop.
- Single hot shoe trigger compatibility with a majority of cameras available on the market.
- Provides a shadowless light source that presents details and reduces harshness, resulting in even lighting of the subject.
- Cost-Effective Option.
- Portable and Convenient.
- User-friendly interface for easy operation.

Wide Application

ML-150II can be used for shooting insects, flowers, portraits, food, and even in dental photography. No matter if you are an experienced photographer or a beginner, just show your creativity with it.

Brightness Adjustment

ML-150II offers eleven degrees of brightness, allowing more precise adjustment of the light you need and opening up more fanta stic possibilities for your creations.

Tech Specs

Model	ML-15011
Power Supply	4*AA alkaline batteries
Guide Number	GN12 (ISO 100, in meter)

MF12

MACRO LIGHT

MF12

MF12 is perfect for macro lighting, which enables you to shoot beautiful and sharp photos of small subjects in extremely close distance. It's not only ideal to work individually, but also can serve as a multi-flash solution when several units attach to the mounting ring, forming a ring flash effect or more other flexible light effects as you wish.

Key Features

Adjustable head for quick positioning

 Adjustable head for quick positioning, even extreme close-up range is within its reach. Compact size results in "invisibility", lighting up the object while hiding itself away easily from the frame.

Flexibility Helps Perfection

 Instead of illuminating forward only, every flash can rotate to a different angle freely and slide around the mounting ring for correct positioning.

Compact Design

 optimized for close-up photography due to its compact design and unique ability to be mounted directly to a lens via an optional adapter.

Rechargeable High-Performance Battery

• The powerful built-in lithium battery supports approximately 500 full-power flashes with a 0.01 to 1.7 second recycling time, easily rechargeable through an included USB Type-C cable.

MF-R76

Wonderful things are taking place in every corner of the world. However, they may not be easily perceptible in our daily life. Macro photography is the key to those wonders awaiting for you to observe and explore. Therefore, Godox is more pleased to launch Macro ring flash MF-R76, another high performance unit of our macro family, delivering creative macro light solutions to all macro photographers, enthusiasts, and those working in specialist scientific applications.

Key Features

- With a ring shape design and a flash head directly attached on the front of a lens, the MF-R76 provides illumination without getting in the way or casting harsh shadows, which is ideal for the close-up images
- A dual-flash-tube design with a separate brightness control system to either fire both tubes simultaneously, or each at a time from full power to 1/128 at 1/3 stop increments to create light/dark contrast
- A couple of focus assist lamps in 10 levels of power ratio helps to make focusing and composition easier in highest efficiency.
- Including a wide range of adapter rings, compatible with lens of diameters: 49, 52, 55, 58, 62, 67, 72, 77mm.
- The controller unit uses a hot shoe which is able to be compatible with all of the majority cameras.
- The rechargeable lithium battery delivers up to 660 flash times in full power

MACRO LIGHT

MF-R76C/S/N

Macro ring flash MF-R76C/S/N with TTL function brings you the ease of shooting a stunning close-up image. Efficiency-enhancing TTL, high-speed sync, user-friendly interface and compatibility with Godox X system level up your close-up photography experience. Open the box, load the battery, and start shooting, everything is just that simple.

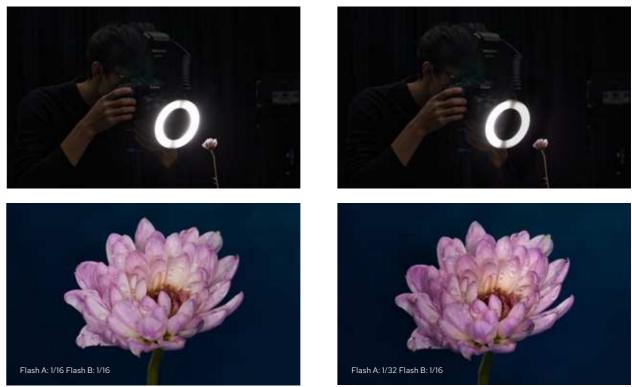

Key Features

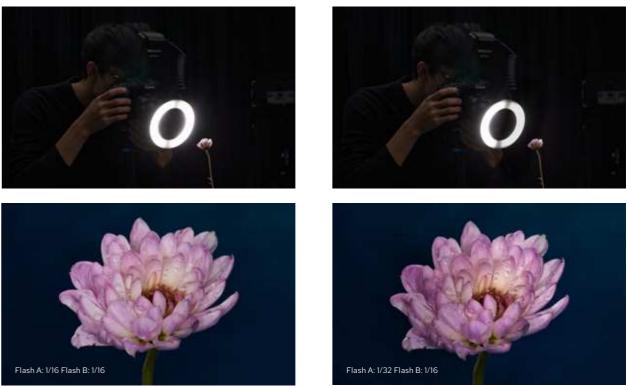

- Capable of high-speed sync and TTL.
- Built-in Godox 2.4G Wireless X System.
- User-friendly interface for easy operation.
- Provides a shadow-free lighting solution that presents detail and evenly brightens the subject.
- The twin-tube design enables individual power ratio control for each side.
- Equipped with two focus-assist lamps that have 10 adjustable power levels.
- Durable Battery Performance.

interface gets you ready right away.

The twin-tube design allows you to separately adjust power ratio for each side, get the contrast effect you want.

MF-R76C/S/N is simple to use with a straightforward interface. Even if you are a dentist with no experience in macro photography, a user-friendly

RING72

Ring 72 is featuring with high versatility and high output Leds for both video and pictures. The circular design ensure even and soft lighting. Whether to work in professional field such as macro photography, clinical dental photography, or to recors cherished moments in daily life, it will provide the best light effect you need.

Key Features

- Powerful LEDs: featuring 72 high quality daylight-balanced 5600K LEDs to better present every detail of small things and ease your video shooting.
- Flexible light head: allow photographers to circle 360 freely around the subject to fully show all the angles and details.
- Multi-use: available for both on and off camera and enable shooting without worrying distance and direction.
- Separately controlling the brightness of the left and right half: allow you to easily vary the contrast of your pictures.
- Dual power supply:running with 4AA lithium batteries or a detachable lithium battery.

Aaccessories

There are 8 kinds of adapter rings been offered to match with

different needs and cameras.

Capture Eye Light with Ring72

Featuring 72 high-quality daylight-balanced 5600k LEDs, Ring72 is powerful enough to present detail while reducing harsh shadows. Aiming to let everyone, especially beginner, to get the hang of it soon and make a good shot, its operation can't be easier. Simply turning on the light and rotating the dial to adjust, you're prepared to start. Moreover, it is available for both on/off-camera usage, which unleashes your creativity profoundly. Regardless of distance and direction, within the cable's stretch, is within your ideas'reach.

In portrait shooting, catchlights play an important role in creating dimension and depth, and in adding life to a portrait by drawing attention to the eyes.

The One typical way of creating catchlight is to placed the light at a 45-degree angle and angled downward, ring lights work well as a normal light source. The Ring72 makes your skin glowing by soft illumination and leaves beautiful catchlight in the eyes. Thanks to the brightness of a continuous ring light, your subject's pupils will be constricted, allowing you to see more of the color in their eyes.

DENTAL FLASH

MF-R76S+

DENTAL FLASH

MF-R76S+

MF-R76S+

MF-R76S+ is a dedicated dental ring flash for Sony cameras and the perfect lighting tool for esthetic dentistry. Delivering comprehensive, expert, and top-tier solutions to practitioners specializing in aesthetic dental photography. This ring flash is meticulously crafted to address the distinct requirements of dental professionals, enabling them to capture exceptionally detailed images with increased efficiency.

Key Features

- Seamlessly compatible with Sony cameras A7M4, A7R5, A6400, and ZV-E10 when matched the renowned macro lens FE90MM (SEL90M28G).
- With calibrated TTL mode for dental photography, the MF-R76S+ ensures seamless synchronization between the camera and flash setting.
- The ring shape on-axis with the camera lens, a design originated from dental photography, ensures even illumination and eliminates unwanted shadows from various angles during intraoral and extraoral photography.
- Accurate reproduction and consistent color temperature output.
- The focusing assist beam enables quick and precise focusing, avoiding misfocus and the need for repeated shots.
- With a rechargeable lithium battery capable of delivering an impressive 550 flashes on a full charge

DENTAL FLASH

MF12-DK1

The MF12-DK1 is a more all-inclusive and advanced solution for aesthetic dental photography. This comprehensive dental flash system includes all the accessories required for dental photography, saving dentists time and energy to get started. With special consideration for seamless compatibility among the accessories, this kit allows for higher efficiency and convenience during dental photography shooting.

Key Features

Dental Mode Flash Trigger

• XProIIS+ is specially designed for dental photography and exclusively compatible with Sony cameras and lens. This dental flash trigger features a dedicated Dental Mode that significantly enhances the workflow by quick adaptation of falsh-on-camera settings. Dental Diffuser

• With the help of the diffusers, the light is perfectly diffused, effectively illuminating hard-to-reach areas during intraoral photography, such as posterior molars and more. Dental Bracket

• MF-DB enables flexible and precise adjustment of the light position, thus creating more dimensions for dental shooting. The flash head can be rotated 180° on the bracket, allowing it to be positioned as close as needed to the lens.

Rechargeable Battery

With a powerful integrated lithium battery, the flashes can accommodate up to 500 full-power flashes and offer a rapid recycling time of 0.01-1.7 seconds.

Storage Case

 The storage case is designed with quality and space efficiency, easily accommodates all accessories, and offers a clean and organized storage solution.

MF-DB

MF-DB

The optional dental bracket MF-DB is specifically designed for the dual flash head, constructed from exceptionally durable materials. It ensures the stability of the lamps while providing flexibility and adjustability. The dual flash heads can rotate 180° on the bracket, allowing it to be positioned as close as needed to the lens and effectively illuminating the posterior molar region.

XProllS+

The XprolIS+ is specifically crafted for dental photography, offerin exclusive compatibility with Sony cameras and lenses. This dental flash trigger boasts a dedicated Dental Mode, greatly improving workflow by swiftly adapting flash-on-camera settings. Additionally, it facilitates one-touch operation to activate the modeling light for added convenience.

Key Features

- Dental Mode ensures more stable signal transmission, minimizes unnecessary signal interference, and delivers more precise output for macro picture shooting.
- XProIIS+ controls the flashes with built-in Godox wireless system e.g. camera flashes, outdoor flashes, and studio flashes.
- XProIIS+ features one-touch activation of the modeling light, making it incredibly efficient.
- XProlIS+ supports TTL flash and high-speed flash synchronization, and the maximum flash synchronization speed is up to 1/8000s.

Model	XProllS+
Compatible cameras	Sony cameras (TTL autoflash)
Power supply	Support for the cameras that have PC sync socket
Flash Exposure Control	
TTL autoflash	2*AA batteries
Manual flash	Yes
Stroboscopic flash	Yes
Functions	
High-speed sync	Yes
Second- curtain sync	Yes
Flash exposure compensa	ationYes
Flash exposure lock	+3EV(exposure value)
	adjustable in 1/3 EV increment
Focus assist	Yes
Modeling lamp flash	Yes
Beeper	Control the modeling lamp flash by flash trigger
Wireless Shutter	Control the Beeper by flash trigger
ZOOM Setting	The receiver end can control the camera
	shooting through the 2.5mm sync cord jack
TCM function	Adjust the ZOOM value by the transmitter from
	AUTO or 24 to 200
Firmware upgrade	Transform the TTL shooting value into the
	outputvalue in the M mode
Memory function	Upgrade through the USB Type-C port
	Settings will be stored 2 seconds after last
	operationand recover after a restart
Display	Large LCD panel, backlight ON or OFF

FOCUSING LIGHTS

S60/S60Bi

Beam angle from 6 to 55 degrees, you can get the ideal spotlight size by adjusting the rotary knob on the back. With a projecting lens (optional) light can be focused at its extreme. This controllability makes S60 series perfect for lightening any details.

Key Features

• Beam angle from 6 to 55 degrees, light where you want

- Variable Color Temperature
- High color rendering CRI/TLCI rating of 96+/97+
- Lighting FX
- Silent mode
- Control by Godox Light app, remote RC-A6 or DMX

More Features of S60 Series

• With a built-in Bluetooth system, the S60 can be remotely adjusted for the setting on the user-friendly "Godox RC-A6 wireless remote control.

Silent Mode

• In the silent mode, the fan is turned off to avoid any acoustic disturbance for sound sensitive environments. (light intensity is decreased by half when the fan is turned off)

S30

S30

The focusing LED light S30 is a suitable light source for video lighting, interviewing, headshot, still life photography, portrait, wedding photography, and pre-wedding photography, and also a good choice for enthusiasts who want creative lighting.

Key Features

Outstanding Lighting Effects

• An aspheric optical lens gives S30 with a CRI and TLCI rating of 96+, S60 CRI/TLCI ratings of 96+/97+ and guarantees natural, pristine color in any application.

Precise Control of Light Coverage

• With a beam angle from 6 to 55 degrees, you can get the output spread size you need by adjusting the rotary knob on the back. An optional projecting lens makes it useful lighting details.

Multiple Options of Power Supply

• Three ways of power supply offer great convenience for S30, portability and wide application

Power supplied by DC adapter (15V/4A)

Power supplied by Power supplied by li-ion battery (Sony NP-F970/ power bank F950/F930) (7.4V) with a USB cable(5V/2A)

Even and Smooth Beam (with projection attachment)

CAMERA FLASH POWER PACK

PB960

PB960

PB960

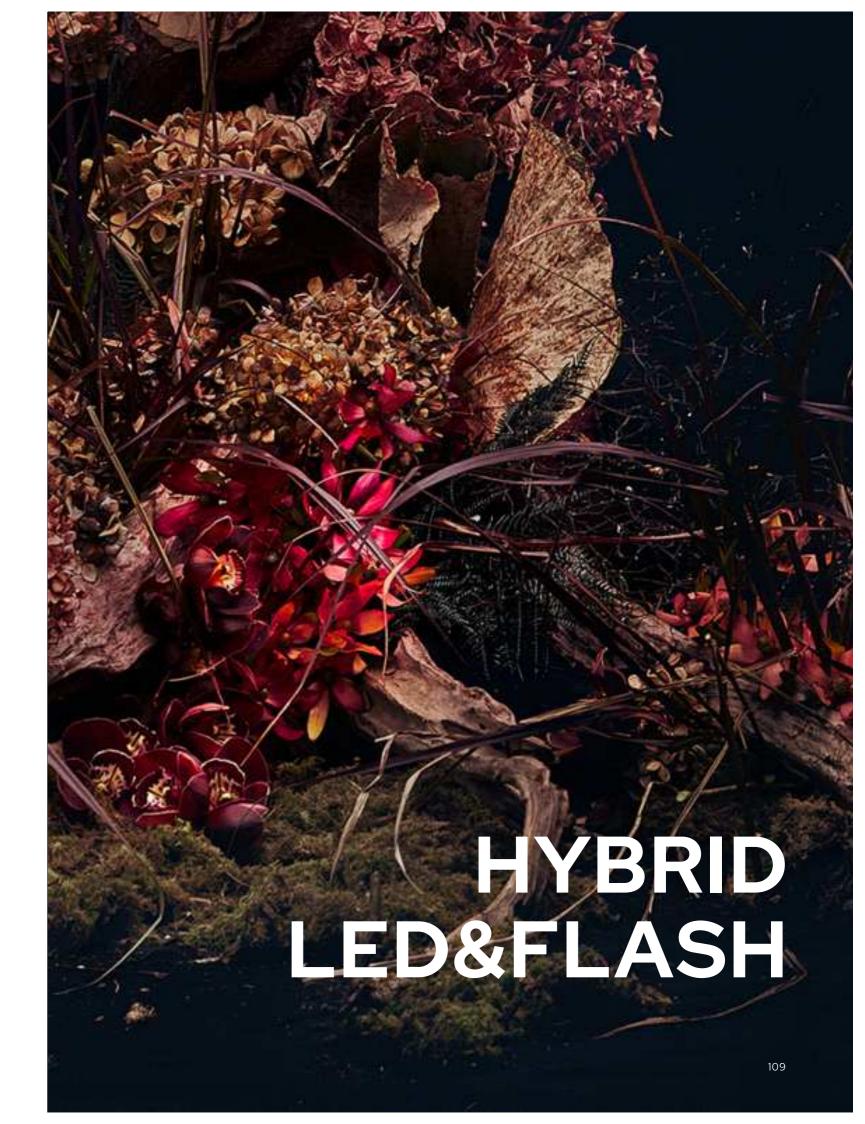

PB960 Dual Output Power Pack adds a power output port so as to providing power to two flashes at the same time. Powerful battery helps improve working duration, greatly increase flash times and reduce recycling time. Perfect for photojournalism, event, sports, wedding and location photography, shooting never interrupted!

Key Features

- Powerful:Large-capacity lithium battery offers up to 1800 full power output and 3 hours working duration
- Quick recycling time: With PB960, it taked only 1s recycling time for Canon 580EX,Nikon SB900, and Sony F58AM at full power charging status.
- Strong Compatibility:Compatible with on-camera flashes from main camera brands.
- Dual power supply: Special power supply designed for charging two flashes at the same time. And the battery chamber is replaceable and removable.
- LED Display: Clear and concise LED display panel represents electric quantity and working status. It also alarm for over heat and lower battery.
- Portability:Slim and lightweight,with built-in belt clip and shoulder strap, it easy to carry to everywhere.

Model	PB960
Battery Unit	Lithium battery 10.8V/5800mAh
Battery Charging Time	Approx. 4.5 hours
Full Power Recycle Time	Approx. 1s
Full Power Flashes	Approx. 2100
(on Canon 580EXII or Nikon SB900)

Over 10 continuous flashes per second in 1/2 power 1/HSS 1/8000s HSS 2.4G Godox wireless X system LED Mode $\downarrow \downarrow \downarrow$ Soft light effects

FV150/FV200

High Speed Sync Flash and Continuous Light FV series add flash functions based on the traditional LED light. FV series can be served as a flash, as well as an LED light. With strong power, abundant functions and 8 FX special effects modes, it can achieve creative shooting easily.

Key Features

As a Flash

- The flash'light brightness is four times of LED light's, which increase the freezing ability of instantaneous action.
- Supports 1/8000s high-speed sync function.
- Over 10 continuous flashes per second and 8 continuous flashes per second in high-speed sync mode in 1/2 power output.
- Built-in Godox 2.4G wireless receiver, compatible with Canon, Nikon, Sony, Fuji, Panasonic, Olympus and Pentax cameras.
- 1/16-1/1 or 6.0-10.0 power output displayed in the form of fractions or decimal.
- Adjust modeling lamp's light brightness from 5% to 100%. As a LED Light
- With soft light effects and high light brightness which can be precisely adjusted from 0% to 100%.
- With 8 FX special effects mode to simulate various of shooting scene and achieve creative shooting.

More Design Details

- Support wireless control.
- With U-type bracket to adjust different angles easily.
- Bowens-mount.
- Large and clear LCD display.
- Excellent heat dissipation.

LF308

LF308

Featured with wireless group control and brightness adjustment with high lighting, LF308 fits various professional shooting occasions: wedding, journalistic and object video photography.

Key Features

As a Flash

- The light is 3 times brighter when used as flash than when used as a led light.
- 1/8-1/1 or 7.0-10.0 power output displayed in the form of fractions or decimal.
- The modeling lamp's light brightness can be adjusted from 0% to 100%.

As a LED light

- 308 beads offers high brightness and stable light source.
- 0%-100% precise brightness adjustment.
- For the daylight version, the color temperature is fixed at 5600K.
 For the bicolor version, the color temperature is adjustable between 3300K and 5600K.

TTL WIRELESS FLASH TRIGGER

X3 C/N/S/F/O/L

Х3

With years of expertise in the flash industry, we proudly present the X3 TTL Wireless Flash Trigger. Featuring an OLED touchscreen and physical buttons on the side, X3 adapts seamlessly to various shooting scenarios. Support TTL, HSS, Front Curtain Sync and Rear Curtain Sync. Compact and portable for shooting on the go. The sleek design makes it compatible with mirrorless cameras in both functionality and aesthetics.

Key Features

- Color Group Indicator
- L-858 Mode, Legacy Hotshoe
- OLED touch screen
- Offering TTL, HSS, Front Curtain Sync and Rear Curtain Sync function
- Built-in lithium battery
- Compact and sleek design
- Support TTL, Manual mode and Multi mode, TCM instant conversion
- 16 groups, 32 channels and 99 IDs, wireless scan
- 2.4G Godox wireless X system for seamless connection and control
- Adjustable screen brightness, standby time
- Upgrade through the USB-C port

TTL WIRELESS FLASH TRIGGER

FT433

TTL WIRELESS FLASH TRIGGER

FT433

FT433

118

The Godox FT433 Flash Trigger offers reliable 433MHz wireless control with TTL and High-Speed Sync up to 1/8000s. Compatible with Canon, Sony, and Nikon cameras, it pairs seamlessly with Godox next-gen flashes like the AD200ProII, AD600ProII and AD600BMII-ideal for efficient, precision-driven shooting.

Key Features

- Operating on the 433MHz frequecy band
- Enjoy TTL, Manual, and Multi-flash modes
- High-Speed Sync up to 1/8000s
- Control via Bluetooth with the Godox Flash app
- LCD Screen, TCM Function
- Shoot rapidly , and mount quickly
- Range: 328'/100m
- Includes FR433 USB-C Receiver
- Runs on Two Optional AA Batteries

XProll

TTL WIRELESS FLASH TRIGGER

XProll C/N/S/F/O/L

XProll

Xproll further upgraded in various aspects to provide users a more intuitive, efficient, and professional lighting experience. The most highlighted upgrade is the addition of Leica version, which opens up a whole new lighting system for Leica users like never had before. Moreover, the XproII all versions are added with functions including built-in Bluetooth connection, direct adjusting on Sekonic L-858 light meter, quick release lock, all-new UI design, a smoother dial, and so on.

STUDIO FLASH TRIGGER

XT16/DM&RT

STUDIO FLASH TRIGGER

XT16

With 2.4GHz X Wireless Radio System, Godox XT16 Wireless Power-Control Flash Trigger helps you create and take control over your wireless flash setup. It has access to 16 channels for elaborate configurations. Users can sync at speeds up to 1/250 second and there are multiple power control settings for working with speedlights or studio flashes. Additionally, it runs on two easy-tofind AA batteries.

Key Features

- Wireless Power Control Function
- Mounts to Camera's Hot Shoe
- Frequency: 2.4 GHz
- Channels: 16
- Up to Eight Stops of Power Control
- Max Sync Speed: 1/250 Second
- Transmitter Runs on Two AA Batteries

TR Series

TR-TX/TR-RX

TR Series is a multi-functional shutter remote, featuring image stabilization and exposure timer function. The exposure timer and interval settings make it available for time-lapse photos of stars trails, sunsets, blooming flowers and much more.

Key Features

- 2.4GHz wireless remote control system, 32 channels, control distance 100M
- Single shooting, Continuous Shooting, Delay Shooting, Timer Shooting Interval Shooting, Schedule Shooting and Repeat Shooting
- · Compatible with Godox X wireless system

FC16

Key Features

- 16 delectable channels.
- Max. sync speed to 1/250s.
- Adopting 2.4GHz wireless remote system, this remote control features multi-channel triggering, stable signal transmission, and sensitive reaction.
- Composed of transmitter and receiver, this product can function as a remote studio flash trigger, a speedlite trigger and a camera shutter release.

APP CONTROL GODOX FLASH

APP CONTROL

Godox Flash

In shooting, photographers sometimes adopt certain camera angles like high-angle shots for the needed results. At this point, managing the flash triggers can be inconvenient. Godox Flash enables users to sit beside the computer to master the work progress with their smartphones and tablet PC. Give more creative possibilities and maximize work efficiency at the user's fingertips.

Key Features

- Compatible with X2, XPROII series trigger
- Stable Bluetooth transmission
- Quick access to control modes of Modeling Light, Beep, and Multi
- Tap or swipe to control, change parameters or put lights on standby by whole light group or single ones
- Easily save the data and download settings to quickly start shooting next time
- Light data can be shared on different devices through QR code for an effective work pace or remote instruction

PARABOLIC LIGHT FOCUSING SYSTEM

Parabolic Light Focusing System P68/P88/P128/P158

PARABOLIC LIGHT FOCUSING SYSTEM

P68/P88/P128/P158

For visual artists, there is no limit to investigate the possibility of light for expressions.Godox Parabolic Light Focusing System realizes a distinctive way to shape your light. Thanks to the engineering preciseness and pursuit of excellence, the exquisite 24-brace reflector works perfectly as a light re-inventor creating dimensions no other light shapers could. Benefiting from the focusing system you will get great light variations from just one modifier. Entry the world of parabolic light for exploring the pro light shaping!

Key Features

- True parabolic ensures smooth spread, beautiful contrast and focusable versatility
- Gorgeous sculpturing effects, enhanced dimensionality
- Rich contrast could be obtained while tonal areas being evenly lit
- Vibrant colors could be well maintained
- 24 braces, efficient weapon to put your light power to good use
- Great compatibility with various mount strobes
- Thoughtful securing mechanism, prevent your light from being destroyed

Reflector reflects rays in certain angles depending on the light position. when at the focus, rays being collimated to form a focused and narrow beam with great contrast; when light is moved further out, rays tend to diffuse with less contrast.

P68/P88/P128/P158

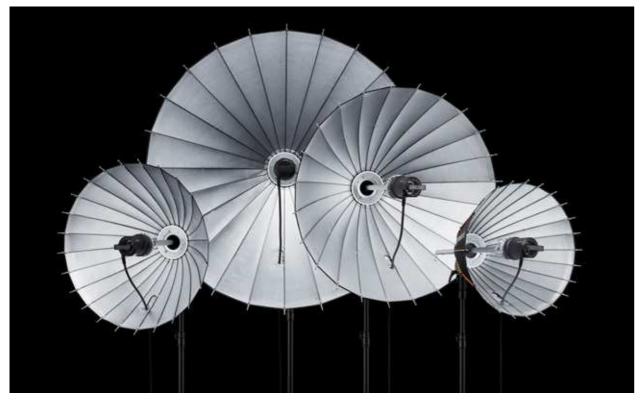

PARABOLIC LIGHT FOCUSING SYSTEM

PARABOLIC LIGHT FOCUSING SYSTEM

24 braces means a large number of reflected panels that makes the modifier as close as a circular source, thus a more efficient weapon to put your power to good use.

Optional Purchase

Diffuser (with two densities for a progressive 0.5 reduction of light contrast)

FLASH PROJECTION ATTACHMENT

P68/P88/P128/P158

FLASH PROJECTION ATTACHMENT

BFP

BFP

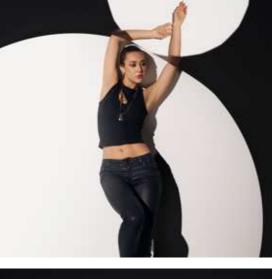

The BFP Flash Projection Attachment serves as a professional and trustworthy light-shaping tool paired with Bowens-mount studio flashes. The special optical lens gives clear projection. 360° rotatable design makes modifying gobo patterns super easy. With BFP, you have the power to craft clear spots, precise shapes, and creative patterns according to your vision.

Key Features

- The BFP boasts Godox's innovative 360° rotatable design for effortless gobo adjustments, ensuring uninterrupted creative flow.
- The meticulously crafted lens produces a sharp, clear circle of light with precise color accuracy, offering uniform brightness from the center to the edge.
- The BFP kit includes an 85mm lens, with three additional lenses available separately for various scenarios: 48mm, 65mm, and 150mm.
- Each of the four focusable lenses comes equipped with a heatinsulating cover for safe and secure.
- It features four built-in shutter blades, allowing for highly efficient creative expression.
- Features an EF lens mount, compatible with a range of EF lenses in addition to the dedicated lens.
- It accommodates the majority of Bowens Mount flashes on the market.

FLAGS&SCRIMS

SF6090 Kit/SF4560 Kit

SF6090 Kit/SF4560 Kit

To achieve the desired lighting effect, it takes more than just a few lights, you also need the lighting modifiers in hand to allow some fine tuning of the light. The Scrim Flag kit of Godox, which offers you a highly versatile and portable light-modifying solution, will be the best choice. With the foldable flag frames, flag fabrics, and fingers and dots, you can easily set them up in studio or on location, use them to highly control the light. For better photography, videography, and film-making, this kit can definitely help you to finely adjust the light and reach ideal tones on the pictures so as to unleash your creative potential with higher efficiency.

Portable, ergonomic designed

Key Features

- Including two versions to satisfy more personal needs of size.
- Easy for storage and transport with an ergonomically designed carry-case.
- The compact and foldable flag scrims is extremely easy to be set up and made use of.
- The black nets and one-stop silk could be used to alter the light & dark contrast of the picture.
- The black solid could be used to block unwanted illumination, or create shadows.
- The two-stop silk could be used to diffuse and soft the light
- The dots and fingers in black net and solid fabrics allows shaping light just like the flags of black net and solid, but on smaller objects or areas. They're ideal for tabletop shooting or in situations where the larger fabrics are inconvenient.
- The open edge design of the flag scrim gives a softer cut of light, also prevent from hard transitions due to the edge.
- By finely adjust the angle of the screen in front of the light, it allows very changeable light & dark contrast; create the wanted transition at where you need.

AD-S60S

Compatible with AD300Pro/ML60/ML60 Bi, comes with grids Godox AD-S60S is a dedicated softbox with silver interior finish and parabolic reflecting shape to deliver indirect lighting and create distinct contrasts.The softbox has native Godox mount to snap onto the AD300Pro or ML60/ML60Bi in no time, comes with two levels of diffusion to create degrees of increased softness, includes grids for extra beam directing, and has zippered slot for cables and cord placement on the side.

The Godox mount softboxes comes with a grid that eliminates spill light and provides the directional control that facilitates selective lighting.

AD-S65S/AD-S65W

Compatible with AD300Pro/AD400Pro/ ML60/ML60Bi, comes with grids The parabolic softbox has two model AD-S65S with silver lining and AD-S65W with white lining. AD-S65 softbox adopts parabolic box design to offer soft and even light effects for shooting. The shape of the softbox allows the user to control precisely where the light falls and soften the light stream and is built on the basis of a quick folding mechanism.

AD-S85S/AD-S85W

Compatible with AD300Pro/AD400Pro/ ML60/ML60Bi, comes with grids With deep design to output soft light with a sharp falloff, Godox AD-S85 makes feathering and edge-lighting simple. The included fabric grid thwarts spill light and offers directional control necessary for selective lighting. Its quick-folding mechanism allows you to set up and break down quickly.

P90L/P90H/P120L/P120H

QR-P70/P90/P120

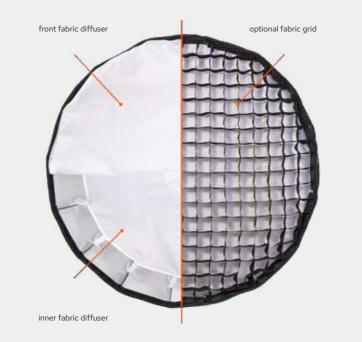

6000X GR-P90

P90L/P90H

Godox Parabolic Softboxes are the essential modifier for commercial, fashion, and portrait photographers. There are two version for choice, P90L for Lighy Version and P90H for High Temperature Resistant Version. P90L/P90H series adopt deep parabolic box design, which enables light to be sent out straightly and brightness, offering even, soft, and high saturation light effects for shooting with easy installation, great portability. P90L/P90H comes with removable one-stop outer and inner diffusers to achieve different levels of contrast. A carry bag is included for storage and transport.

P120L/P120H

Godox P120L/P120H softbox is useful for stunning fashion and portraiture images. Same as P90L/P90H, the P120 softbox also has two version. P120L/P120H is a 16-sided light-shaper offering focused, soft output with a punchy, crisp edge that lends dimension and detail to your subject as well as natural-looking catchlights in their eyes. The parabolic design yields soft, focused light with a crisp edge. With removable outer and inner diffusers, it can achieve desired contrast. A carry bag is included for storage and transport.

Each of the parabolic softboxes (P90L/H & P120L/H) as well as QR Quick Release Parabolic Softboxes have a reflective silver interior with a black outside. There are also removable inner and front fabric diffusers that clip into both the parabolic softbox and quick release parabolic softbox, as well as an optional fabric grid to narrow down the beam spread for more precise control.Removable inner and front diffusers, giving you brightness & contrast. The collapsible grids (optional) narrows the beam spread of the softbox.

QR-P70/P90/P120

The Godox quick release parabolic softbox adopts an impressive quick release system for rapid setup and breakdown. Highly versatile and compatible, it provides you reliable light quality and various creative expressions. Avaliable in three different sizes, this fast and easy to use softbox is deal companion for your indoor and on location shootings

Key Features

- Reflective silver interior to render a punchy high contrast
- Removable inner and front fabric diffusers
- Impressive quick release system for rapid setup and breakdown
- Reliable light quality and various creative expressions
- Bowens mount strobes and continuous light compatible

QUICK RELEASE PARABOLIC BOWENS MOUNT

QR-P70/P90/P120

COLLAPSIBLE LANTERN SOFTBOX

Compatible with any flash head or monolight that uses the popular Bowens accessory mount; The softbox can also mount with Godox mount and Profoto mount accessory via attaching the SA-GD Godox mount adapter (optional) and SA-PF2 Profoto mount adapter (optional). And speed ring SA-BR2 is for adapting Broncolor lights.

As it folds down into an easy carry bag, it's extremely portable and therefore ideal to use on location.

Effortless Softbox Setup

The easiest way to put the softbox up is to click two rods on opposite sides up at the same time. Once they're all clicked into place, you simply Velcro the top panels of the softbox together to prevent light leakage.

To take the softbox down again, you simply lift the rod slightly whilst pressing down the button above it.

In this way, you can have the softbox assembled in mere minutes.

CS-85D/CS-65D

CS-85D/CS-65D

Godox Collapsible Lantern Softbox CS-85D/CS-65D is perfect for use overhead or to raise the ambient illumination level. With a 270 degree beam angle, the light is ideal for video recording, live streaming, film making, and still life photography.

Key Features

- Extremely Fast Setup
- Stunning, Soft, Omni-Directional Light
- Bowens Mount Compatiblity
- Optional skirts for beam spread control

Thanks to it's simple and durable design, this softbox is a breeze to use. The lantern can be popped open or closed in mere seconds.

Purchase skirt for achieving better light control Skirt Set for Lantern Softbox (Available for Purchase) SS-65 for CS-65D/SS-85 for CS-85D.

CAMERA FLASH SOFTBOXES

S-Type Bracket

S2 Bowens mount

S-EC S-type Bowens mount Elinchrom mount

Godox offers S2/S type bracket as a mobile solution for adapting any type of speedlight or barebulb, round head strobe to create flattering, soft and rich light. The Bowens Mount S2 Bracket is more compact and portable than the original S-type bracket and lets you maximize the potential of your on-camera flash.

Key Features

- No pre-assembly or post disassembly
- Mounts speedlite vertically or horizontally
- Mounts with light pressure-no touch-fasteners
- Adjustable to fit most brands of speedlites
- Integrated umbrella mount
- Compatible with Bowens Mount accessories

S-C

Comet mount

Handy Speedlite Softbox Kit

Godox Handy Speedlite Softbox Kit is a mobile solution for adapting most speedlight or major Godox AD series monolights to create flattering, soft and rich softbox quality. The lightweight softbox opens and closes speedily. The kit can transform your speedlight and barebulb strobes into a snooted hair light, a texture enhancing beauty dish or even a gridded spot.

What's in the box

- Godox S2 Speedlite Bracket
- Softbox (34×34cm)
- Front Diffuser
- Inner Diffusion Baffle • Grid
- Carrying Bag (80×80cm)

Available in 4 sizes: 80×80cm, 60×60cm, 50×50cm, 40×40cm. Softbox opens easily and mounts on S-type bracket in seconds.

Purchase Options

S2 Bracket (Bowens mount)+bag+softbox S2: SGUV5050, SGUV6060, SGUV8080, SGGV5050(with grid), SGGV6060(with grid), SGGV8080(with grid) S-EC Bracket (Elinchrom mount)+bag +softbox SEUV4040, SEUV5050, SEUV6060, SEUV8080 S-C Bracket (Comet mount)+bag+softbox SCUV4040, SCUV5050, SCUV6060, SCUV8080.

156

Four-Speedlite Adapter

Used for quadrupling your flash power, the adapter allows you to mount up to 4 flashes simultaneously to a separate S-Type bracket with a single knob. It allows you to use all four flash units at once for maximum power or adjust each flash individually for optimal and precise options in light intensity.

Key Features

- Durable aluminium built quality
- Create high brightness as you wish.
- Mout up to four camera flashes simultaneously
- Flexibly adjust its place with strong bearing

LIGHT SHAPER

AK-R22

Designed specially to benefit Godox round head flash users, AK-R22 is a portable collapsible light modifier that offers even soft effect and increased illuminatedsurface. Featuring variable shapes, it adds to the fun on softening your light.

Key Features

- Even soft glow
- Increased illuminating area
- Variable light effects
- Load free on Godox round head flashes AD100P ro, AD200Pro (with H200R) and V1

Load Free

To extend the portable experience that Godox round head flashes features such as AD100PRO, AD200PRO (with H200R) and V1, AK-R22 is engineered in just fine size and makes it load free on flashes.

Even Soft Glow

Perfect shape design grants a smooth even softening, as well as an increased illuminating area that holds your subject seem under natural light.

VariableLight Effects

The diffusion dome structure helps it possibly maintained at three positions, which can be considered as, three different light modifying angles. Try the changeable light qualities, and find your style that distinguishes your work from others!

Pro Reflector (Bowens mount)

RFT-19 30°/18cm

The reflector has a faceted and polished interior which can greatly enhance the brightness.

Pro Standard Reflector (Bowens mount)

RFT-13 65%21cm

Delivers high output with a good spread of light, it can be used with the barndoors, honeycomb, gels, diffusers.

Pro Background Reflector (Bowens mount)

RFT-18

Used for backlighting. Delivers a graduated oval of light on the background. Included clips can be used to attach gels, filters or diffusion material and help to create special effects. An ideal light pattern especially for portrait.

35°Umbrella Reflector (Bowens mount)

RFT-03

Designed for Godox monolights and LED lights. It features a Bowens mount with a 35° beam spread.

Pro Umbrella Reflector (Bowens mount)

RFT-17 110%15cm

It features built-in umbrella mount. When working with umbrella, it brings about wider spread of light and better outlines the subject.

Pro Grid Reflector (Bowens mount)

RFT-14 60°/18cm(AD-H7 Honeycomb sold separately) Proprietary ventilation design prolongs the service life of your flash tube and gives your light better protection. Compatible with barndoors, gels, diffusers.

Oblique Background Reflector (Bowens mount)

RFT-02

Casting a graduated oval pattern when placed behind a portrait subject for even lighting of the background.

120°Wide Angle Reflector (Bowens mount)

RFT-04

A120-degree wide beam angle and produces even light that's well-suited to portraits, beauty subjects, large groups, and spaces.

LIGHT SHAPER

LIGHT SHAPER

Silver/White Pro Beauty Dish (Bowens mount)

BDR-S55/BDR-W55: 54cm

The beauty dish distributes light towards a focal point. The light created is between that of a direct flash and a softbox, giving the image a wrapped, contrasted look, which adds a more dramatic effect. It accentuates facial features and textures while creating beautiful shadows and catch lights. A perfect lighting shaping tool for portrait, cosmetic and fashion photographers. The interior of the beauty dish comes in two coatings: the silver and the white color. Silver interior creates more contrast and brings out more details than the white.

Beauty Dish BDR-S

Silver Interior: 42cm

Silver Beauty Dish bounces the light off a centrally positioned deflector and is directed to fill the silver reflector interior. The result is a signature soft look but with an edge of crispness (ideal for hair and makeup), that you can't get from umbrellas and softboxes. For those who want a softer look, a diffusion sock is included. The silver interior adds a little contrast and punch and increases the light's throw range. An added bonus is the natural-looking catchlights that appear in the subject's eyes. Optional accessories include a honeycomb grid to tunnel and direct the light output.

Beauty Dish BDR-W

White Interior: 42cm

White Beauty Dish bounces the light off a centrally positioned deflector and is directed to fill the white reflector interior. The result is a signature soft look but with an edge of crispness (ideal for hair and makeup), that you can't get from umbrellas and softboxes. For those who want a softer look, a diffusion sock is included. The reflector's white interior renders a soft, neutral quality of light. An added bonus is the natural-looking catchlights that appear in the subject's eyes.

Pro Snoot (Bowens mount)

SN-05: 42cm

Produces a narrow beam of light and concentrates light into a focused area while giving sharp fall-off at the same time.

Snoot

SN-04

Compatibility: Godox AD300Pro & AD400Pro Ideal for hairlighting, the Snoot narrows the light's beam spread to a round, soft-edged circle that gets smaller as you get closer to your subject. For even greater control and a smaller circle, a removable honeycomb grid is included.

Barndoor Kit

BD-08

Compatibility: Godox AD400Pro

The Barndoor Kit contains a 4-way barndoor set, honeycomb grid, and one each, green, blue, red, and yellow filter. The barndoors allow you to light areas of the subject you want to and keep light from areas that you don't want illuminated. The grid narrows the beam spread into a soft-edged circle which is ideal for uses like hair lighting. The color filters are provided for creative expression.

Barndoor Kit

BD-04

Compatibility: Compatible with all Bowens Mount Light A versatile kit for modifying light output from a strobe, this Barndoor Kit fis designed to fit on the front of Godox standard reflector(AD-R6). Included in the kit is a four-leaf barndoor set for adjusting the shape of the light output; a honeycomb grid for producing a harder quality of light and a tighter beam; and yellow, green, blue, and red gel filters for producing a dramatic and creative wash of color.

Barndoor Kit

BD-10

Compatibility: Godox AD300Pro

The Barndoor Kit provides what you need to light selectively as well as encourage creative expression. The barndoors have a 4-way design. Simply swing one or more leaves into the AD300pro's beam path to light the areas you want to have illuminated and keep light from areas you don't. Red, yellow, blue, and green filters, as well as a diffuser, are also included.
